## COMMISSION DECISION

of 22 November 2006

**concerning the non-inclusion of ammonium sulphamate, hexaconazole, sodium tetrathiocarbonate and 8-hydroxyquinoline in Annex I to Council Directive 91/414/EEC and the withdrawal of authorisations for plant protection products containing these active substances**

(notified under document number C(2006) 5535)

(Text with EEA relevance)

(2006/797/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market <sup>(1)</sup> and in particular the fourth subparagraph of Article 8(2) thereof,

Whereas:

- (1) Article 8(2) of Directive 91/414/EEC provides that a Member State may, during a period of 12 years following the notification of that Directive, authorise the placing on the market of plant protection products containing active substances not listed in Annex I of that Directive that are already on the market two years after the date of notification, while those substances are gradually being examined within the framework of a programme of work.
- (2) Commission Regulations (EC) No 451/2000 <sup>(2)</sup> and (EC) No 1490/2002 <sup>(3)</sup> lay down the detailed rules for the implementation of the second and third stages of the programme of work referred to in Article 8(2) of Directive 91/414/EEC. For active substances for which a notifier fails to fulfil its obligations under these Regulations no completeness check or evaluation of the

dossier shall be performed. For ammonium sulphamate, hexaconazole, sodium tetrathiocarbonate and 8-hydroxyquinoline no complete dossier has been submitted within the prescribed time limit. Therefore it has not been demonstrated that, under the proposed conditions of use, plant protection products containing these active substances satisfy in general the requirements laid down in Article 5(1)(a) and (b) of Directive 91/414/EEC. As a consequence, these active substances should not be included in Annex I to Directive 91/414/EEC and Member States should withdraw all authorisations for plant protection products containing these substances.

- (3) For the active substances for which there is only a short period of advance notice for the withdrawal of plant protection products containing such substances, it is reasonable to provide for a period of grace for disposal, storage, placing on the market and use of existing stocks for a period no longer than 12 months to allow existing stocks to be used in no more than one further growing. In cases where a longer advance notice period is provided, such period can be shortened to expire at the end of the growing season.
- (4) For sodium tetrathiocarbonate and 8-hydroxyquinoline information has been presented and evaluated by the Commission together with Member States experts which has shown a need for further use of the substances concerned. It is therefore justified in the present circumstances to prescribe under strict conditions aimed at minimising risk a longer period for the withdrawal of existing authorisations for the limited uses considered as essential for which no efficient alternatives appear currently to be available.
- (5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

<sup>(1)</sup> OJ L 230, 19.8.1991, p. 1. Directive as last amended by Commission Directive 2004/20/EC (OJ L 70, 9.3.2004, p. 32).

<sup>(2)</sup> OJ L 55, 29.2.2000, p. 25. Regulation as amended by Regulation (EC) No 1044/2003 (OJ L 151, 19.6.2003, p. 32).

<sup>(3)</sup> OJ L 224, 21.8.2002, p. 23. Regulation as amended by Regulation (EC) No 1744/2004 (OJ L 311, 8.10.2004, p. 23).

HAS ADOPTED THIS DECISION:

*Article 1*

Ammonium sulphamate, hexaconazole, sodium tetrathiocarbonate and 8-hydroxyquinoline shall not be included in Annex I to Directive 91/414/EEC.

*Article 2*

Member States shall ensure that:

- (a) Authorisations for plant protection products containing ammonium sulphamate, hexaconazole, sodium tetrathiocarbonate and 8-hydroxyquinoline are withdrawn by 22 May 2007;
- (b) From 23 November 2006 no authorisations for plant protection products containing ammonium sulphamate, hexaconazole, sodium tetrathiocarbonate and 8-hydroxyquinoline are granted or renewed under the derogation provided for in Article 8(2) of Directive 91/414/EEC.

*Article 3*

1. By derogation from Article 2, a Member State listed in column B of the Annex may maintain authorisations for plant protection products containing substances listed in column A for uses listed in column C of that Annex until 31 May 2010 at the latest. A Member State making use of the derogation provided for in the first subparagraph shall ensure that the following conditions are complied with:

- (a) the continued use is only accepted so far as it has no harmful effects on human or animal health and no unacceptable influence on the environment;
- (b) such plant protection products remaining on the market after 22 May 2007 are relabelled in order to match the restricted use conditions;

(c) all appropriate risk mitigation measures are imposed to reduce any possible risks;

(d) alternatives for such uses are being seriously sought.

2. The Member State concerned shall inform the Commission about the measures taken in application of paragraph 1, and in particular about the actions taken pursuant to points (a) to (d), by 31 December of each year.

*Article 4*

Any period of grace granted by Member States in accordance with Article 4(6) of Directive 91/414/EEC, shall be as short as possible.

Where authorisations shall be withdrawn in accordance with Article 2 by 22 May 2007 at the latest, the period shall expire on 22 May 2008 at the latest.

Where authorisations shall be withdrawn in accordance with Article 3(1) by 31 May 2010 at the latest, the period shall expire on 30 November 2010 at the latest.

*Article 5*

This Decision is addressed to the Member States.

Done at Brussels, 22 November 2006.

## ANNEX

**List of authorisations referred to in Article 3(1)**

Column A	Column B	Column C
Active substance	Member State	Use
Sodium tetrathiocarbonate	Greece	Soil disinfection in horticulture.
	Spain	Soil disinfection in horticulture and woody crops.
8-Hydroxyquinoline	France	Vine cuttings application.
	Greece	Localised soil disinfection in horticulture, orchards, olive orchards and vineyards. Vine cuttings application.
	Spain	Protection of pruning wounds on woody crops. Localised soil disinfection in horticulture. Vine cuttings application.
